

Compliance Form of Essential Requirements

(To be completed and returned in Technical Proposal)

A Tenderer will not be considered further if he/she does not provide sufficient information below to demonstrate its compliance with the Essential Requirements in Clause 2.3 of the Technical Specification.

Essential Requirement 1: QR Code Reading Device	
1.1	Equipped with QR code reading function in the Food Waste Smart Bins to recognize 10-digit GREEN\$ membership numbers? ☐ Yes ☐ No (Please tick as appropriate)
1.2	A drawing / photo is provided below to indicate the position of the QR code scanner in the Food Waste Smart Bin to substantiate its claim in 1.1 above.

Name of Tenderer:	
--------------------------	--

Essential Requirement 2: Big Data Platform	
2.1	Successful connection to the EPD's Common Communication Platform? ☐ Yes ☐ No (* Please tick as appropriate)
2.2	A passed result of the Basic API Tests or Full API Tests has been obtained from HKPC and attached to this document to substantiate its claim in 2.1 above [see Note 1]. ☐ Yes ☐ No (* Please tick as appropriate)

Note 1: Please approach the following contact point of Hong Kong Productivity Council (HKPC) for performing the Basic API Tests to confirm technical feasible connection to the EPD's Common Communication Platform. Please note that it takes at least 5 working days for performing the Basic API Tests.

Mr. Andrew MOU
Senior Consultant – Smart Electronics
Smart City Division (SCD) 智慧城市部
